

Lewy Body Dementia Association Resources

[LBDA's 2025 Community Webinar Series](#): Master your understanding of Lewy body dementia (LBD) and its symptoms, strengthen your ability to advocate for services and support, and pick up new tools and techniques to live optimally with LBDA's 2025 Community Webinar Series.

[Lewy Learning Center](#): Lewy Body Dementia Association's Lewy Learning Center is a platform for sharing education on Lewy body dementia (LBD) with the community and health care professionals. A go to place for on-demand learning, courses are available to watch at any time, share with friends and family members, with unlimited viewing options.

[LBDAtv](#): The YouTube channel for The Lewy Body Dementia Association. You'll find excerpted lectures, previous webinars, and information pertaining to Lewy body dementia (LBD).

[LBDA Support Services](#): Those living with symptoms or a diagnosis of Lewy body dementia, care partners, and involved professionals can connect to LBDA Support Services staff through the LBDA Lewy Line or Support email for guidance, information, resources, and connections.

- Lewy Line phone number - 800-539-9767
- Support email – Support@LBDA.org
- Find more information about [support groups](#)

[Mediflix](#): "Edu-taining" video streaming platform that helps patients, families and caregivers chart the health journey they have ahead. On the Mediflix's LBDA channel, you can stream [SPARK: Robin Williams and His Battle with Lewy Body Dementia](#) as well as additional videos and content about LBD.

[The U.S. Based DIAMOND Lewy™ Management Toolkit](#): Originally developed in the UK for dissemination via the National Health Service, the Diamond Lewy™ Management Toolkit provides a comprehensive overview of the management of the complex symptoms of Lewy body dementia: sleep, cognition, psychiatric symptoms, autonomic features and motor symptoms.

[Lewy Trial Tracker](#): Lewy Trial Tracker makes it easy for you to keep up with and participate in the latest LBD research. It's an ongoing, single source of information on LBD-related clinical trials and studies that highlights study topics, procedures, locations, and contact information.
