

Ask an Expert: Alzheimer's Association Education Series

Navigating Alzheimer's disease can come with questions around every turn. Join us for our monthly Ask an Expert education series to connect with local experts to get your most pressing questions answered.

Dementia Conversations with Dr. Scharre: Lewy Body Dementia and Robin Williams's story

When: Thursday, June 3, 11am-1pm

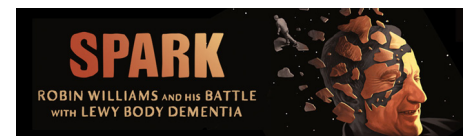

- This virtual, two-hour event begins with a short program entitled "Dementia Conversations," and covers those difficult conversations when someone is showing signs of dementia.
- Following "Dementia Conversations," we are pleased to show a documentary entitled "SPARK: Robin Williams and his battle with Lewy Body Dementia."
- Concluding the event will be a live Q&A session featuring dementia experts/neurologists Dr. Douglas Scharre and Dr. Ari Merola from The Ohio State University Center for Cognitive and Memory Disorders.

This event is **FREE**.
Registration is required.

Upon registration, a link to login will be provided.

About the Experts:

Dr. Scharre serves as the Director of the Division of Cognitive Neurology and the Center for Cognitive and Memory Disorders at The Ohio State University. He leads the Memory Disorders Clinic which has over 2500 patient-visits a year and the Memory Disorders Research Center which has conducted over 200 clinical trials in the last 28 years.

Dr. Ari Merola is a neurologist focusing on advanced therapeutic options for Parkinson's disease, dystonia and tremor disorders who strongly believes in developing a therapeutic alliance with each patient.
