APRIL 28, 2021

Capturing the Spark of Robin Williams

We invite you to join us for a special viewing of the film Spark, a 45 minute educational adaptation of the documentary Robin's Wish, produced by Lewy Body Disease Association in partnership with Acadia Pharmaceuticals. This film tells the story of Robin Williams and Susan Williams' agonizing journey of trying to get a diagnosis and cope with symptoms that created significant anguish, fear, grief, and confusion. The film will be followed by a panel discussion with movement disorder specialist David Shprecher, DO, MSci and psychiatrist Daniel Weintraub, MD. Participants will be offered the opportunity to share and ask questions about the clinical aspects of the film, and how they might apply to their own symptoms and care.

Wednesday, April 28th
12:00 PM - 1:30 PM PT

Livestream
Registration Required at
